

# Balkobot quick getting started

For Waiting page/Splash release (Yeezys)

The screenshot shows the Balkobot web interface. The 'Main Menu' is visible, with 'Splash Tasks' circled in red. Below the menu, the URL 'www.adidas.com/us/yeezy' is entered. The 'Add Task' button is highlighted with a red arrow. The 'Proxy List' section is empty. The 'Start All', 'Stop All', and 'Delete All' buttons are also visible, with a red arrow pointing to 'Start All'. On the right side, a table lists tasks and their status.

1. Navigate to Splash Tasks, then add tasks, use less than 50 to start. When the waiting page is live you can start the tasks, then wait for them to pass the waiting page.

The screenshot shows the balkobot interface with a dark theme. On the left, there is a sidebar with 'Main Menu' and 'Splash Tasks' sections. Under 'URL', the address 'www.adidas.com.au/yeezy' is entered. Below that are buttons for 'Add Task', 'Add 5 Tasks', and 'Add Proxy Tasks'. A 'Proxy List' section is also visible. In the center, there are buttons for 'Start All', 'Stop All', 'Delete', and 'Delete All'. A notification at the bottom center says 'Task 17 Applied 0:22' with a 'Remove' button. The main area on the right displays a table of tasks with columns for task ID, task name, status, and actions (Start, View, Stop). The status column contains 'PASSED - Click to Apply' for several tasks, with the first instance circled in red. The task names are 'Proxyless Task' and 'Splash live'.

2. When the task is ready, click the task column that says apply, you then have 10 minutes to create as many carts as you can for this product in main menu. Alternatively you can click view and checkout with that browser.

3. Enter the correct Product ID and tick Captcha unless not necessary.

When captcha is ticked, you will need to supply captchas, click open browser harvester to start harvesting some.

On Mac, you will need to edit your host files to include balko.adidas.com 127.0.0.1 for this to work.

Click the Plus to create the task then the start button to start. If successful the cart will show on the right after some time.

You can then view and checkout or distribute the carts

The screenshot shows the balkobot web interface. At the top, there's a navigation menu with 'Main Menu' and 'Splash Tasks'. The main area features the 'balkobot' logo and version 'v1.14'. A 'Check for updates' button is in the top right. The configuration section includes 'Product ID' (F36640), 'Captcha' (0/0), 'Size' (11), 'AU' (AU), and 'Cart Modifiers'. A large '+' button is used to create tasks. Below this, a notification says 'Task 17 Applied 4:42' with a 'Remove' button. On the left, there are controls for 'Update Sitekey' (with a key icon), 'Turn on 2Captcha' (with a gear icon), and 'Open Browser Harvester'. On the right, a scrollable log shows task progress: 'Task16 has Passed', 'Starting Task 0', 'ATC failed F36640 9', 'Starting Task 1', 'Added F36640 9', 'Task0 has Passed', 'Task18 has Passed', 'Task21 has Passed', 'Task1 has Passed', 'Task10 has Passed', 'Starting Task 2', 'Starting Task 3', 'Starting Task 4', 'task 3 invalid captcha', 'Added F36640 9', 'Added F36640 11', 'Starting Task 5', 'Added F36640 11', and 'Task30 has Passed'. At the bottom, a table lists generated carts with columns for '#', 'Size', 'Tasks', 'Captcha', 'Proxy', and 'Carts'. The table contains four rows of data. On the far left, there are buttons for 'Start All', '3000 Delay(ms)', and 'Delete All'. A 'Deactivate License' button is in the bottom right corner.
